

Text Alerts with Notifier

Unlimited Messages. Unlimited Subscribers.

Keep parents, students and staff informed with this easy-to-use and affordable mass-communication system.

School closings, parent-teacher conference reminders and last minute game changes can be quickly sent to a subscriber's cell phone in a text message or email. As a opt-in service, patrons can easily sign up to receive specific messages on your website.

With SOCS Notifier you can:

- **Easily Manage Lists**
You decide what list you want to create. Subscribers decide which lists to opt in.
- **Target Your Messages**
Some patrons will want emergency messages only and others may want updates and reminders as well.
- **Schedule Message Delivery**
For updates and reminders, your staff can pre-load messages and specify a delivery date and time.
- **Access Your Account From Any System With Internet**
Cloud-based and easily accessible, SOCS Notifier is available when you need it.
- **Rest Assured Your Account Is Safe**
SOCS Notifier maintains a secure encrypted login on a redundant server system with dedicated backup and disaster recovery.

SOCS Notifier with email notification is included in every SOCS license. **SOCS Notifier with text notification is a separate license and fee.**

SOCS has been helping schools implement proven communication strategies since 2003. We can help you design a mass communication strategy that notifies constituents instantly in an emergency or keeps subscribers up to date on events and activities. Contact us today for a quick demonstration.

Simplified Online Communication System
