Easy Content Management

SOCS' easy article editor with familiar editing tools makes posting breaking news and managing content a snap.

Email Newsletters

Articles in email newsletters link back to your website. Customizable listservs ensure your message gets to the right audience.

Provide Private Sections

Sections intended for a specific audience can be password protected.

Create Photo Galleries

Batch upload photos to create scrolling galleries with full-sized photos and captions. SOCS will automatically size your image.

Easy Image Upload

Create a custom masthead to congratulate a team, celebrate a holiday or welcome special guests. Upload your designs for the masthead, image rotator and section images quickly and easily.

Manage Section Content

Only sections with articles will appear in the navigation—no more empty sections or construction zones. Publish dates ensure only current content will appear.

Process Online Payments

This system integrates easily with payment programs.

Calendar Highlights

Display events in a scrolling list, a month view with hover-over pop-up events, or a horizontal week view. Highlights can appear on the front page or a designated section.

Calendar of Events

The events calendar provides automatic email reminders and event change notifications for subscribers.

Provide Forms

Post permission slips, enrollment forms and even job applications online.

Video Serving

Easily upload and manage videos on your website with our video servicing feature. Once videos are uploaded, any authorized user with article creation rights can embed videos into articles.

SOCS Staff Pages

Staff members can create and manage their own website that featuring news and providing valuable information.

SOCS Blogs

The interactive feature of SOCS Blogs allows staff to post regular entries of commentary and invite others to post comments.

SOCS Lockers

Online storage capability that allows designated users to easily store and share electronic documents in an individual, secure account.

SOCS Wikis

Multiple users can be assigned to an easy text editor that allows them to edit articles directly on the web page.

Conduct Polls and Surveys

Interactive polling and comprehensive surveys allow you to gauge constituent interest in organization-related issues.

Advance Search Capability

When the publishing date for an article ends, it's automatically archived and moved to a searchable content database.

Create Banners and Buttons

Highlight special sections, sponsorships or advertisements by easily creating banners and buttons.

Translate Content

The language translation feature allows readers to easily translate content into multiple languages.

Gather Reader Feedback

The feedback option allows readers to submit comments on articles. You review and approve all responses before they post.

Provide Accessibility

SOCS provides accessibility to people with visual disabilities in full accordance with ADA guidelines.

Notifier

Send emergency news and important updates via our secure, web-based text notifier system. Create customized lists and use with your existing email listservs.

About Our Foundation

SOCS – Simplified Online Communication System is provided by FES LLC, a nonprofit organization. Because we are nonprofit, all SOCS royalties are dedicated to enhancements of SOCS products and to supporting other nonprofit endeavors.

We have served nonprofits since 1986. This experience gives us a deep understanding of the needs of our partners and the ability to develop time-saving, cost-effective solutions.

Our goal is to simplify life for those whom we serve nationwide with leading-edge online communication tools and efficient websites supported by world-class customer support. SOCS is the source for nonprofits' professional online image and tools for mission fulfillment.
