

SOCS Express saves you money

What is SOCS Express?

SOCS Express is specifically designed for schools with an **enrollment of 300 students or less**. Because smaller schools have the same needs as larger schools, **SOCS Express** offers the same easy-to-use system and the same great service you'd expect from **SOCS**. The difference is in the lower cost and the speed at which your site will go live!

You get the same great features

With **SOCS Express** you get the same great features of **SOCS**. It's so easy it allows multiple contributors to submit content. Technical skills are not required. Because it is web based, anyone can post school news and photos immediately after, or during, an event.

Administrators can conduct surveys and polls, staff members can create private sections, teachers can have their own websites and parents can view your site in the language of their choice. And since we provide security, backup and recovery, you never have to worry about losing your valuable content.

And it will save you money...

With **SOCS Express**, you'll choose how your site looks from two of our most popular designs. In addition, our talented creative staff will custom design your masthead using your school colors and mascot. Updates are provided **free** so you never have to pay for another upgrade or install another piece of hardware or software.

SOCS Express is easy.

All you have to do is ...

1. choose your template from two of our most popular designs
2. submit graphics and school colors for the masthead
3. review up to two mockups of your masthead design
4. learn the basics in training
5. add or transfer your content

What comes with SOCS Express?

All the great features of **SOCS** including ...

- classroom tools like teacher pages, blogs, and lockers
